## Pharmacy System Computer-Based Training

As state and federal laws impact how pharmacies do business, and as an increasing number of state boards require proof of training, it's more important than ever to be able to show actual training materials and test scores.

Today, companies are preparing for the inevitable. Eckerd's Director of Training explains, "Our approach was to be proactive rather than reactive. It feels great to know we're responding to needs before they're even realized."

## Outsourcing to Sealund

“The joint Venture seemed to flourish from the project's onset. Thanks to Sealund, we made a lot of good decisions in the beginning. We were under such strict deadlines.”

Ed Nolan, PhD, Director of Training  
at Eckerd Corporation

## Extended Impact

Sealund and Eckerd's Corporate Training and Development have grown from the opportunity to join forces; the primary target audience - Eckerd Pharmacy Technicians and the Pharmacists they work to support has benefited as well. Ultimately, the final and most important winner is Eckerd's customer base - that special entity that our industry strives to serve.

The Eckerd Pharmacy System training is a perfect example of the strength and versatility of Computer-Based Training. This unique training teaches students to use Eckerd's Pharmacy system proficiently while enhancing their customer interaction skills as well.
