

presents Innovative Training Solutions developed for...

CVS

Formerly Eckerd

www.cvs.com

Upon completion of this unit, you will be able to achieve the following three objectives.

1. You will be able to define "dosage form" and identify the primary oral dosage forms.
2. You will be able to recognize the characteristics of tablets and capsules.
3. You will be able to specify the ingredients in suspensions, syrups, elixirs and solutions.

Eckerd Pharmacy Computer-Based Training

Rick Grasnow, Systems Training and
Connie Joslin, Pharmacy Technician Trainer

Dave Moulton, Pharmacy
Training Manager

Sealund's development approach takes Eckerd Pharmacy Technician training from paper-based manual to the PC to the Intranet.

ENGAGING THE USER

Computer-Based Interactives demonstrate how the pharmacy operations can become “real life” with simulations designed from the paper-based Pharmacy Technician Training Manual.

“It’s fun to see mixtures shake and pour to create the right solutions.”

Connie Joslin,
Pharmacy Training

JUST IN TIME

Sealund first designed and developed the Eckerd Pharmacy Technician Training Manual to present key pharmacy operations information and to prepare Pharmacy Technicians for National Certification.
