STAR TEC Business Accelerator

Partners with Sealund for DVD Video Production

STAR TEC selected Sealund to create a DVD that would create industry awareness about the benefits of STAR TEC as a Pinellas County technology-driven initiative. STAR TEC was established with the purpose of accelerating entrepreneurial success in technology and manufacturing companies by providing them with all the resources necessary to run a business. This business accelerator program helps ensure the success of these new

companies and in turn adds high paying jobs to the local area.

"From the initial concept for the script to the video shoot and through the editing process, the Sealund Team went out of their way to make sure our objectives were met."

Tonya Clark
Executive Director

The Making of the Video...

In creating the Business Accelerator DVD, Sealund assembled a complete production crew to capture the necessary footage for a high-quality video. Sealund's crew was involved every step of the way and was responsible for conducting all of the interviews with STAR TEC tenants, community leaders and industry supporters.

Production

Sealund used advanced software solutions, such as Final Cut Pro, Particle Illusions and Macromedia Flash in order to make the video dynamic and exciting.

STAR TEC's Success...

The end result is a 7 minute 23 second DVD that highlights the STAR TEC facility and serves as a sales and marketing piece for future tenants, investors and entrepreneurs.
